

LE HOTELS GROUP: EMBRACING SUSTAINABILITY AND SOCIAL RESPONSIBILITY TO ENRICH LIVES FOR ALL

LE
HOTELS GROUP

We enjoy pursuing opportunities for positive changes. In all our hotels, we are gradually implementing initiatives that contribute to the minimization of our environmental footprint and foster sustainable development.

OUR SUSTAINABLE ACTIVITIES

Waste reduction and recycling:

- reduction of plastic straws and packaging;
- refillable dispensers for soap, shower gel, and body lotion;
- food dispensers during breakfast;
- water stations for refilling reusable glass bottles;
- waste sorting and recycling in conference areas.

Resource conservation and energy efficiency:

- towel and bedding exchange only upon guest request;
- reduction of printed materials through online information guides accessible via QR code;
- installation of energy-efficient lighting and a central key system for turning off lights;
- individual air conditioning control for each conference room.

Environmental protection:

- using environmentally friendly products for cleaning purposes;
- implementing heat recovery systems to utilize residual heat from air conditioning;
- green spaces, such as hotel rooftops;
- wastewater treatment systems, including grease traps and car wash recycling.

Social responsibility:

- supporting local resources and suppliers;
- collaboration with non-profit organizations and projects such as Debra and Dobrý anděl through the sale of water bottles, providing stays for children.
